PROFESSIONAL EXPERIENCE

Grras Solutions | Aug 2025 - Present

Product Manager | Jaipur, India | Remote

- Architected a **6-month product roadmap** across 3 concurrent workstreams using **JIRA** and **Azure DevOps**; introduced standardised **PRD templates** that cut requirement-to-sprint time by **30%** and eliminated recurring scope creep.
- Slashed UI revision cycles by **40%** by running **Figma**-led design-engineering alignment sessions, converting wireframes directly into developer-ready specs with zero back-and-forth.
- Instrumented **KPI dashboards** in **Firebase** and **Mixpanel** tracking learner activation and feature adoption; surfaced **3 drop-off points** that directly reshaped Q4 roadmap priorities.
- Facilitated **Agile/Scrum** ceremonies via **JIRA** and **Confluence** across a 6-person team, maintaining **zero sprint carryover** across **10 consecutive delivery cycles**.
- Repositioned platform focus to outcome-driven delivery using **OKR frameworks**, improving learner retention by **~15%** within the first two quarters.

Maatie (D2C Skincare & Decor) | Oct 2024 - Aug 2025 | Part-Time | Remote / Jaipur, India

Founder & Product Manager | 0-to-1 Venture

- Conceived and launched a **D2C skincare brand from zero to live in 90 days**, owning discovery, UX design in **Figma**, SKU strategy, and fulfilment flow entirely solo.
- Ran **30+ async customer interviews** to validate product-market fit, cutting first-batch inventory waste by **25%** before a single unit shipped.
- Iterated on checkout UX using **Hotjar** heatmaps and session-replay data, driving **cart-to-purchase conversion up 18%** within **60 days** of launch.
- Executed **A/B tests** on pricing, packaging, and messaging via **Google Optimize**, compressing reorder decision time from **4 weeks to 10 days**.
- Scaled the brand to **INR 4L (approx. USD 4,800) in revenue within 3 months** via rapid SKU iteration, organic content, and a conversion-optimised **Shopify** storefront.

Demonstrated full ownership and zero hand-holding operating entirely remote. The defining skill in any distributed product role.

Zensar Technologies | May 2022 - Oct 2024

Agile Product Collaborator (Embedded PM) | Pune, India | Hybrid

- Co-owned product vision and roadmap in **JIRA** for enterprise web applications serving **Fortune 500 clients**; co-authored epics and acceptance criteria that reduced ambiguous developer queries by **35%**.
- Spearheaded delivery of user-facing workflow features using **Agile/Scrum**, improving task-completion rates by **20%**, validated through pre/post usability benchmarks with international stakeholders.
- Orchestrated story-mapping and MVP scoping workshops in **Miro**, shipping **4 major releases on schedule** over 2 years across a **12-person engineering team**.
- Compressed story-clarification lag from **3 days to same-day** by acting as technical translator between PMs and engineering using **Confluence** documentation and structured daily syncs.
Shipped 4 major releases coordinating documentation-first and written-async across multiple time zones. Only developer driving product conversations on a globally distributed team.

Tagbox | Aug 2021 - Apr 2022

Product Contributor & Frontend Developer | Jaipur, India

- Shipped customer-facing features on a SaaS platform serving **1M+ users**; defined **JIRA** acceptance criteria that reduced post-launch bug reports by **22%**.
- Validated post-release performance using **Mixpanel** and **Google Analytics** across **3 consecutive releases**, ensuring success metrics were met within **30 days** of each go-live.
- Engineered scalable frontend components in **React.js** and **TypeScript**, translating ambiguous business goals into scoped tasks with **100% on-time delivery**.

Socialmeedya | Jun 2020 - Aug 2021

Project Coordinator & Frontend Developer | Jaipur, India

- Facilitated **8 client-facing discovery sessions**, converting qualitative feedback into prioritised **JIRA** backlogs that reduced post-delivery revision requests by **~30%**.
- Scoped and delivered **3 product MVPs** on time and on budget using **Agile** practices, each with clearly defined success metrics agreed upfront with stakeholders.
- Crafted client-facing interfaces using **React.js**, **Vue.js**, and **REST APIs**, bridging technical execution with product requirements across all 3 MVPs.

SELECTED PROJECTS & CASE STUDIES
