PROFESSIONAL EXPERIENCE

Product Manager

Grras Solution, Jaipur – Aug 2025 – Present | Contract

- Defined and managed end-to-end product roadmap, translating business and customer requirements into detailed PRDs, wireframes and user journeys.
- Collaborated with cross-functional teams to deliver scalable, user-centric solutions that align with business growth and market needs.
- Implemented Agile methodologies, including sprint planning, backlog grooming and retrospectives, to ensure smooth execution and timely delivery.
- Leveraged frontend to align with developers on UI/UX decisions, improving platform usability and learner engagement.
- Monitored KPIs and usage analytics to drive data-backed product decisions, boosting adoption and retention.

Impact: Strengthening Grras' EdTech product ecosystem by improving user experience, platform scalability, and adoption metrics.

Founder & Product Manager

Maatie, Jaipur - Oct 2024 – Aug 2025 | Part-Time

- Created and launched a natural skincare and decor D2C brand with a strong focus on product-market fit.
- Owned product strategy, user research, feature planning, and success metrics for each product line.

- Designed and managed the full lifecycle of SKUs from ideation to digital launch and customer delivery.
- Implemented feedback-based product iterations, increasing customer retention and reducing churn.
- Applied tools like Trello, Figma, and analytics dashboards to improve UX and inform roadmap decisions.

Skills Applied: Product Lifecycle, MVP Testing, E-commerce UX, Agile, Trello, Brand Storytelling.

Agile & Product Collaborator

Zensar Technologies, Pune - May 2022 – Oct 2024

- Collaborated with product managers and designers to define feature requirements and shape product direction.
- Contributed to defining product vision, epics, and roadmaps for enterprise web applications.
- Used agile processes to deliver product increments, attending sprint planning, standups, and demos.
- Led development of user-facing features that improved task completion by 20%.
- Participated in user story mapping and MVP scoping sessions, balancing tech feasibility and business needs.

Tools: JIRA, Azure DevOps, React.js, Vue.js, Scrum

Agile Product Contributor & Frontend Developer

Tagbox, Jaipur - Aug 2021 – May 2022

- Worked closely with product and design teams to ship customer-facing features.
- Interpreted business goals into actionable technical tasks, contributing to on-schedule delivery of key features impacting 1 Million+ users.
- Involved in defining user acceptance criteria and validating post-launch performance.
- Communicated release progress to stakeholders and integrated customer feedback in iterations.

Client-Facing Product Contributor & Frontend Developer

Socialmeedya, Jaipur - Jun 2020 – Jun 2021

- Delivered multiple web features based on client requirements and user goals.
- Helped define scope and success metrics for product MVPs.
- Participated in client meetings to gather feedback and convert insights into product iterations.

SELECTED CASE STUDIES | [View Full Portfolio](#)

- **Socio-Vox (AI Video Dubbing):** Led the 0-to-1 development of a "lovable" SaaS app for global content distribution, focusing on seamless UX for AI-driven audio synchronization. [visit](#)
- **WhatsApp Intelligent Inbox:** Designed an AI-powered intent classification system to solve message clutter, moving from simple filtering to sophisticated user-intent organization.
- **Prama AI (AI GRC SaaS):** Developed a product roadmap for AI Governance and Risk, incorporating frameworks like the EU AI Act and NIST to help enterprises manage AI compliance.
