PROFESSIONAL EXPERIENCE

Frontend Developer & Agile Project/Product Contributor

Zensar Technologies, Pune - May 2022 – Oct 2024

- Coordinated delivery of multiple sprint teams for enterprise web applications under Agile frameworks.
- Collaborated with Product Owners, Scrum Masters, and Program Managers to align project deliverables with strategic objectives.
- Managed risk and dependencies across concurrent projects, improving team velocity by 25% over 3 sprints.
- Led backlog grooming, sprint planning, and estimation sessions.
- Provided regular updates to stakeholders, ensuring transparency and alignment on goals.

Tools: JIRA, Azure DevOps, React.js, Vue.js, Scrum, Agile

Frontend Developer & Agile Contributor

Tagbox, Jaipur - Aug 2021 – May 2022

- Delivered features as part of multi-project Agile releases, aligning work across product, design, and QA teams.
- Participated in sprint ceremonies, client demos, and retrospectives, integrating feedback into releases impacting 1M+ users.
- Managed timelines and coordinated task allocation to meet program milestones.

Frontend Developer & Client-Facing Contributor

Socialmeedya, Jaipur - Jun 2020 – Jun 2021

- Delivered multiple web modules on schedule for concurrent client projects.
- Acted as key point of contact for progress updates, integrating client feedback into iterative releases.
- Participated in planning, scoping, and scheduling to align with market timelines.

PRODUCT OWNERSHIP AND PROGRAM INITIATIVES

Property Manager App

Role: Developer with Agile Team Practices

- Helped define user journeys, MVP scope, and phased rollouts for a real estate CRM.
- Coordinated with multiple product leads and stakeholders for cross-team alignment.
- Reported on risk areas, provided mitigations, and ensured deliverables met program objectives.

Store Stock App

Role: Developer & Sprint Contributor

- Created a digital inventory platform for small retailers.
- Contributed to backlog grooming and peer code reviews as part of Scrum delivery.
- Used React Native, Redux, and Firebase to ensure cross-platform performance.
- Coordinated feature handoffs across front-end, backend, and design teams, contributing to weekly syncs and retrospectives.
